PROJECTS

My Portfolio
- Designed and Developed a personal **portfolio** website showcasing my projects and skills, enhancing online presence.
- The homepage features a captivating introduction with my name and image. Enabled smooth navigation throughout the website.
- My portfolio emphasizes the "Projects" section, showcasing recent projects on the main page. Additionally, a hyperlink leads to a curated selection of my best projects.
- **Tech Stack: HTML | CSS** Github

Cake Shop
- Designed and developed a dynamic **e-commerce** platform for a **cake shop**, boasting a delightful design and seamless responsiveness across devices.
- Integrated **local storage** for enhanced user experience and implemented features enabling users to browse, select, and add items to cart from **cakes** and **pastries** page with details such as price, weight, and quantity.
- Crafted a dedicated **cart** page to consolidate and display selected items alongside the total amount.
- **Tech Stack: HTML | CSS | JavaScript** Github

Weather App
- Developed a **Weather App**, enabling users to retrieve weather information by city.
- Integrated local storage for persistent user preferences and implemented dynamic weather icons based on current conditions for enhanced user experience.
- **Tech Stack: HTML | CSS | JavaScript** Github

Database Mini Project: College Database
- Created a database that includes details of students, teachers, subjects and marks.
- Designed the E-R diagram and implemented the database schema. Executed various queries to retrieve and manipulate data.
- **SQL (Oracle)**
